All contact lenses not listed by type or brand name are 25% off regular retail, except for disposable lenses which are 10% off.

Additional Benefits Include: Products not listed on the fee schedule will be subject to a 25% discount off the regular retail price. Manufacturers rebates may be used in conjunction with the fee schedule pricing. No other discounts apply. Prices are subject to change.

Elective Eye Surgeries

Total Vision Services arranges discounts through reputable Ophthalmologists for LASIK and PRK procedures. Call Total Vision Services at (513) 921-7500 or (800) 869-5400 for information regarding discounts. Usual and customary charges vary between physicians.

LASIK Surgery is used to correct moderate to severe nearsightedness or farsightedness. During the LASIK procedure, the doctor makes a small cornea flap incision with a device called a microkeratome. The laser is then used to reshape a thin layer of tissue at the base of the cornea.

PRK Surgery corrects mild nearsightedness or farsightedness. A laser beam is used to reshape the front surface of the eye during the PRK procedure.

How to use the Total Vision Service Program

Simply present your Dental Care Plus ID Card at any of the provider locations to receive your program discount. If you decide to use your own eye doctor and not take advantage of the reduced examination fees under the TVS PROGRAM, take your prescription to any of the provider locations and they will fill it for you at TVS PROGRAM rates.
