

Helping Hands - a community service supporting Madeira families

Greetings,

Welcome to the new school year. We hope your summer was a good one and you're looking forward to the new daily routine.

As a service to the students and families of our community, the Helping Hands program is intended to facilitate Madeira's ability to provide support for those of us in need through the school year. We know that needs can arise unexpectedly, and we know that there are many people in our town that very much want to help - Helping Hands is an effort to make the connections that help our community be a better place.

For families who need some support - Please contact your school counselor. The counselor will help connect with Helping Hands resources. While we may not be able to cover every need, we will certainly make an effort to be responsive to your request. Throughout the process, be assured that procedures are in place to maintain confidentiality and your privacy.

For families who would like to donate - we have a website that allows specific donations without identifying the receiving family. We will notify you of the site's address later in the fall. We will notify you of new opportunities through Facebook and other methods, particularly prior to the winter holiday seasons.

Together, we are all Madeira Strong!

Sincerely,

Helping Hands
