FOR IMMEDIATE RELEASE MADEIRA: DISTRICT GRATEFUL FOR LEVY PASSAGE

“It’s a tremendous honor and privilege to serve in such a wonderful school district and we’re appreciative and grateful for the continued support of our Madeira community,” said Madeira Superintendent Kenji Matsudo regarding the passage of the district’s 6.2 mill combined bond and operating levy.

“It took a tremendous team effort led by Residents for Madeira Schools (RMS) co-chairs Brian Kellett, Kristen Oyler, Jeanne Gulick, Tim Hemler, Mike Miller and Barbara Turcotte. These parents and countless volunteers gave numerous hours of time and energy on behalf of a school district they love.”

“It’s a total team effort of our schools and community coming together and rallying around our kids,” said Rich Palmer, Madeira BOE President. “Our success as a school district has everything to do with a supportive Madeira community. We know it’s our investors that make it all possible which is why we will continue to be vigilant stewards of the district’s resources in ways that maximize opportunities for our kids.”

The combined bond and operating levy will allow the district to build an addition on to Madeira Elementary School to support the district’s growing enrollment and will meet the district’s operating needs to support the excellent programs and opportunities that Madeira parents and residents have come to expect. Madeira’s tradition of excellence and longstanding support of the community make Madeira one of the most desirable neighborhoods in the Greater Cincinnati area.

Superintendent Matsudo added, “On behalf of our students and staff, I would like to thank the Madeira community for their continued support. We’re excited about continuing the excellence and ‘Magic in Madeira’ that makes our school and community so special.”
