

The background features a vibrant blue color palette with various shades and textures. In the top right corner, there is a large, bright yellow sun-like shape. Below it, a white pen with a blue cap is positioned horizontally. A blue ruler is placed below the pen, extending across the middle of the page. The overall design is clean and modern, with a focus on geometric shapes and a bright, positive color scheme.

Math (Honors, Advanced or CP) - 1 Core

Science - 1 Core

Social Studies - 1 Core

Special Area Rotation -

- Flight and Space, Art, Medical Detective, Comp.

Highlights of 7th grade

- Service Learning
 - Empty Bowls
 - Student driven service learning opportunities
- March Madness
- Courage Retreat

Team Communication

- Schoology
- Team email (distribution list)
- Parent/Teacher Conferences
- Individual teacher email

Technology Notes

- Chromebook Usage
 - Every student will get their chromebook at the start of the year.
 - We recommend purchasing insurance – each and every year!
- Cell phone policy at MMS
 - All cell phones are kept in lockers between 8:00 and 3:00.
 - Social media – “likes,” “snap-chat,” “instagram” are a HUGE distraction to our students. Adolescent brains are still developing and we are seeing more and more peer issues as a result of inappropriate social media usage.

Encore & Special Area Team

- Music
 - Choir – Audrey Schussler
 - Band/Percussion – Lori Adams & Ryan Ervin
- Communications/Creative Writing – Jill Dunn
- Fitness – Mike Shafer
- Computer – Melissa Broome
- Art – Liz Rossi-Riel
- Flight & Space/ Medical Detective– Leeann McKay

New Courses for 7th Grade

- **FLIGHT & SPACE**

- The exciting world of aerospace comes alive through Flight & Space. Students explore the science behind aeronautics and use their knowledge to design, build and test an airfoil.

- **MEDICAL DETECTIVE**

- Students play the role of real life medical detective as they analyze genetic testing results to diagnose disease and study DNA evidence found at a “crime scene.” They solve medical mysteries through hands-on projects and labs, investigate how measure and interpret vital signs, and learn how the systems of the body work together to maintain health.
